

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

BETTING AT TATTERSALL'S AND NEWMARKET.

MR. W. H. LANGLEY, of "Bell's Life in London," begs to inform the Sporting Public that he continues to supply Betting Letters from Tattersall's and Newmarket upon the same terms as his predecessor, Mr. Ruff.

All Communications to be addressed to W. H. LANGLEY, 170, Strand.

FOR HORSES.

AUTUMN AND SPRING are the Seasons the CONDITION of HORSES ought to be looked to, when they are generally rough coated, hide bound, and altogether debilitated and out of tone, perhaps proceeding from irregular or over-reached exercise, musty or innutritious feeding, which always causes Worms, and induces the most destructive disorders, even to the death of the Horse; but may in such seasons be entirely eradicated by administering

GIBTON'S ORIGINAL WORM AND CONDITION POWDERS,

as a safe and certain remedy for destroying all species of worm, and removing and keeping back diseases. And particularly if given at this season, autumn, and in the spring, they will put the horse in fine condition for the coming season, and give him additional strength and vigour, purify his blood, and add a fine gloss to his coating; and may be administered without making any alteration in either food or labour. And as the horse will take these powders freely, the groom will have but little trouble in giving them.

Sold in boxes, with the Purgative Ball, at 2s. 9d., with a Treatise.

The Public are particularly requested to observe that the Signature of Robert N. Gibton is on each wrapper. Sole Wholesale Agent, W. EDWARDS, 67, ST. PAUL'S, LONDON, and by most respectable Chemists and Booksellers.

STEVENS'S OINTMENT, after twenty years' extensive use, retains its celebrity as the most speedy and certain cure for Curls, Splints, Spavins, diseased Ligaments or Tendons, and all Diseases of Horses' Legs in which the barbarous practice of Firing was formerly had recourse to. It never bleaches; and no Horse will gnaw his legs after this application.—Prepared and sold by HENRY R. STEVENS, M.R.C.V.S., 49A, Park Lane, London (late of Newmarket), in boxes, with full directions for use, 2s. 6d. each, or 2s. free by post; also in 6s. and 10s. boxes.

HUNTING HORNS.

J. KOHLER, 35, HENRIETTA STREET, COVENT GARDEN, LONDON, begs to draw the attention of all true lovers of the Chase to his very extensive Stock of HUNTING HORNS, which, for Quality of Tone and Ease in Blowing, cannot be surpassed. Silver Hunting Horns made to order.

J. Köhler also begs to return his very sincere thanks to the Nobility and Gentry who have kindly favoured him with their patronage.

FEAL'S WATERPROOF LEATHER.

CAUTION.—Attempts having been made to introduce a spurious imitation of the above, but possessing none of its distinguishing properties, GENTLEMEN and SPORTSMEN are requested to take notice that FEAL'S WATERPROOF LEATHER is not supplied under any circumstances to the trade, and that Boots of this Leather can only be had of the Manufacturer, NATHANIEL FEAL, No. 11, DUKE-STREET, GLOUCESTER.

"That popular little work entitled 'The Post and the Paddock' has, I perceive, reached a second edition, and fully merits such a compliment; for since the days when 'Nimrod' wrote his celebrated sporting papers called 'The Turf, the Chase, and the Road,' the sporting world have never had so agreeable and useful a mass of information on their favourite topic set before them."—*"Argus" Morning Post*.
